

Testing MLT Multimedia Framework by using Ruby/mruby/QRNG/IoT/Iron Ruby/JRuby/ImageJ/JI Prolog/Smart Devices[SD]/HPC Systems -> A Simple Technical Notes & Suggestion involving Testing of Advanced Medical Imaging Algorithms & Image Guided Therapy[IGT].

Dr.Nirmal - Informatics R&D - ante Inst UTD Dallas TX USA - hmfg2014@gmail.com

[I] Main Idea :

<https://mltframework.org/> -> Please see all the features.

[II] R&D Informatics Framework :

We are generating our own Informatics Framework for Testing our Algorithms. We are seeing some promising results in our R&D.

<https://vixra.org/pdf/1909.0170v1.pdf> -> Just FINE TUNE our Algorithms. **Thanks - Nirmal.**

[III] Important References :

[a] <https://github.com/tejdnk-2019-ShortNotes> -> Lot of Examples from us -> **Thanks for encouraging us - Nirmal.**

[b] <https://www.kdnuggets.com/2017/03/medical-image-analysis-deep-learning.html>

[c] <http://www.imageguidedtherapy.com/> -> IGT -> IMAGE GUIDED THERAPY.

[IV] Acknowledgment/s : Sincere Thanks to all WHO made this happen in my LIFE. Non-Profit R&D. Inspire others always.

[V] Conclusion/s with Future Perspectives : A Pioneering R&D Effort in this highly challenging domain/s of Medicine. Keep Hacking + Keep Rocking + Keep Going.....

[THE END]
