A Trigger : Towards Detecting Logic Bombs in Android Applications by Using : ruby/ mruby/lib-qrng-mruby/SOMs-Kohonen Maps w.r.t Testing of RASPBERRY PI + BoschXDK-IoT + HPC Heterogeneous Systems -> A Simple & Useful Suggestion to work in IoT Related Complex Environments involving Cyber Attacks + Different Configurations.

Nirmal - Informatics R&D - USA/UK/Germany/Israel/Jordan/Japan/Armenia/BRICS Group of Nations.

[I] Main Idea + Inspiration + Introduction :

https://www.researchgate.net/publication/306301801_TriggerScope_Towards_Detecting_Logic_Bombs_in_Android_Applications

{ **Take a look @ it :** https://github.com/tejdnk-2019-ShortNotes/tejdnk-Space-Medicine-Informatics-github.io/blob/master/Coq-PLC-Stuxnet-Nirmal-2021.pdf }

[II] R&D Informatics Framework -> to Probe Logic Bombs :

We are generating our own informatics framework/s using our earlier algorithms.

Please generate your own.Rigorous Testing in Progress @ the TIME of Submission.

With Thanks - Dr.Nirmal.

[III] Important & Useful References for Direct Reading :

[a] https://github.com/tejdnk-2019-ShortNotes -> Lot of Examples for your use.

[b] https://vixra.org/author/nirmal_tej_kumar -> Lot of Examples for your use.

[c] https://vixra.org/pdf/1907.0306v1.pdf

[IV] Acknowledgment/s :

Sincere Thanks to all WHO made this happen in my LIFE.Non-Profit R&D.Inspire others ALWAYS.

[V] Conclusion/s with Future Perspectives : Ruby is for HUMANS not Machines according to Matz.Keep Hacking + Keep Going.......
Best Wishes.Our TITLE is enough for you to TEST Novel Algorithms + SOMs.

[THE END]
